Title: The Colors Factory

Serial Number : 1.16_ IBA _Script

01:00:04- Hi! Welcome to my kindergarten. My kindergarten is on a kibutz in Israel. On a kibutz everyone lives and works together.

01:00:13- In kindergarten we love to sculpt and paint. Today we are drawing nature.

01:00:25- I am drawing a flower, the sky and the sun.

01:00:39- oops! I'm out of yellow paint! What will I do?

01:00:46- I have an idea!

01:00:54- There are no roads on the kibutz just paths so I will ride my bike on the path to visit my dad. My dad works at the paint factory. Maybe they have some leftover yellow paint for my sun.

01:01:14- Here's my dad. Dad is taking me to the paint factory on the kibutz. We use the paints they make, to draw and paint in the kindergarten.

01:01:40- What fun, dad take it easy with the trolley!

01:01:44- Dad is showing me how they make paint at the factory: water, flour and other ingredients are poured into these great vats to make a mix.

01:02:03- Dad is letting me pour powder into the mix yellow. As yellow as my sun!.

01:02:20- I wonder how many suns you can paint with so much paint.

01:02:26- From the huge factory vats paint is poured into huge containers and then into small bottles just like the ones we use in kindergarten.

01:02:48- Now the bottles are capped so the paint won't spill over. And that's it. The paint is ready! I can go back to kindergarten.

01:03:11- Thanks dad, see you!

01:03:14- Now I can finish my drawing

01:03:42- Isn't it pretty ? Aren't I talented?
