

## **HOW TO MAKE A CHRISTMAS ORNAMENT**

**5'00"**

2:27 – 2:37

Hi ! Would you like to know how I came into being and how I got to your Christmas tree ? It's a very nice story.

2:45 – 2:55

It all begins with these glass tubes... When heated, they softens and can be cut into small pieces.

3:04 – 3:10

The pieces are heated and blown to obtain the desired form.

3:21 – 3:23

Some ornaments are silvered ...

3:30 – 3:33

..... or coloured with a special paint;

3:36 – 3:42

.... then, they go to the oven, to dry.

3:52 – 4:00

This is the painting studio where every ornament gets a new aspect.

4:32 – 4:35

Look at me ! It's my turn to be painted!

5:15 – 5:19

That's it ! All I need is a hanger and a wrap.

5:22 – 5:31

That's how my brothers and I got into your Christmas tree to make it more beautiful.
