To keep this heritage, my sister and I have learnt the skills of this art from our mother. We begin by collecting the color of the soil that we like.	10:13:01:10 - 10:13:12:22

Apart from the soils, we need to use cow dung. We mix it with soil and water to make a paste. This ensures that soil particles stick together so that the decorations are not washed away by rain.	10:14:38:10 - 10:14:55:10
