Tallow is the main raw material for making soap. It is animal fat taken from cattle.	10:25:52:10 - 10:25:59:18
We mix tallow in a big electric pot with water, salt and other ingredients. Then we cook until the tallow is just oil.	10:26:01:20 - 10:26:11:10
You see! Its starting to boil.	10:26:16:00 - 10:26:20:05

The hot oily mixture is going to pass through a L.O.T of machines to cool and dry.	10:26:28:00 - 10:26:34:10
