Paper Landscape

00:47:09

Would you like to know how to make a paper landscape?

00:52:04.....01:00:23

You will need papers of different colours, a ruler, eraser, holding glue, and a round-shaped lid.

01:03:00.....01:18:18

Draw a rectangular shape on one of the papers and cut it out

01:18:18.....01:30:20

Then draw two semi-circles and cut them out

01:30:20.....01:36:19

Paste the two semi-circles on the rectangular-shaped paper and cut them out

01:47:07

Then on a yellow coloured paper, draw a circle and cut it out.

02:02:14

On a different coloured paper, paste the circle and cut it out.

02:18:16

Next, draw triangular shapes on a paper and cut them out

02:33:19

Paste them on a yellow paper and cut to shape

02:47:16

Then...on the round-shaped paper they go.

02:54:21

Now, on a clean bigger paper, paste the two semi-circles earlier made, then paste the round-shaped paper with spikes.

03:02:23.....03:23:17

What do we have? Two hills and a beautiful sun. You can make many other things just like that!
