

REPORT FROM THE FARMYARD

(English translation of speaker text, original Swedish title:
Bondgårdsreportage.)

[Cow dung, 10 04 00 – 10 06 35]

10 04 09

My name is Niklas.

10 04 14

Today I'll help with the cows, in the cowshed,

10 04 26

First I must start the automatic feeder.

It's a smart machine that gives food to the cows.

10 04 57

When the food has gone through the body, it becomes dung.

10 05 08

Now I'll clean up and draw all the dung down into this channel.

10 05 34

That's my little brother, Marcus, who's running behind me.

10 05 40

Then I start a machine that drags the dung away...

10 05 48

...so that it goes out through a hole in the wall.

10 05 58

The dung comes out here.

10 06 03

And a big pile is collected outside the cowshed. Then the dung becomes manure.

10 06 13

Manure contains nutrients – that's like food for the plants.

10 06 19

Then Papa and I drive out and spread the manure on the fields to make them more fertile.
