

## THE VAN CAT

- 00:02 One eye is blue and the other is green.../ The hairs are snow-white.../ The name of this cat is the "Van Cat". The most important characteristic of the Van Cats is that the color of one eye is different than the other's.
- 00:17 However, there are some examples having their both eyes blue or green.../ The homeland of the "Van Cats" is the city of Van in Turkey. This nature loving cats like a strong family life. The kittens never leave their mother until they become a grown-up. Everything in nature is a tool of play for the kittens.
- 00:45 Playing in nature is not a behaviour specific to the little ones. Look at this mother "Van Cat" running after the frog she has found inside the bushes.
- 00:59 With the help of their sharp nails, the "Van Cats" can easily climb up the tress.
- 01:07 The kittens like to play with their sisters and brothers the most.
- 01:14 Another characteristic of the "Van Cats" is that they are very fond of water contrary to other cats.
- 01:32 The nature loving "Van Cat", also easily be adapted to the domestic life.
- 01:44 Of course, playing with each other is again the play they love the most. Even if they bother each other, they are soon in peace.
- 02:05 The "Van Cats" are very keen on their cleanness so may be they always lick their hairs to keep them white all the time. Even sometimes, beside themselves they lick the the other members of the family. This is also a way of showing their love.
- 02:25 Would you like to have a "Van Cat" either?
