

# THE TARSUS ÇATALBURUN DOGS

Music Composed By: Burak ÇAMBEL

01:33 Tarsus is an old city in southern part of Turkey.

There is a different kind of a dog family in Tarsus. Its name is "çatalburun" means "Two Noses".

01:49 The shape of the nose is different from the other dogs. Evidently all dogs definitely have two nostrils but this dog seems to have two separate noses.

02:12 This dog is unique and can not be found outside of this area. They are very intelligent from other hunting dogs.

02:28 They are not very tall, they are very faithful and have very developed sense of smell. Their noses are always wet in every season.
