10:00:08	Its inhabitants are tortoise rescued from a forest fire.
10:00:14	They just woke up after a period of hibernation.
10:00:18	So, I have to find and feed them because they may be weak now.
10:00:30	If I don't gather them, little ones may be crushed.
10:00:53	I must keep them together.
10:00:55	Luckily, they are very slow
10:01:13	They love tomatoes.
10:01:14	Bigger and stronger eats first.
10:01:16	The weak ones have to wait for their turn, as usual
10:01:42	These are my water tortoise.
10:01:44	They follow the noise of my hand when I hit the rocks.
10:01:54	They really are curious and patient.
10:01:58	Imagine! They are older than our grandfathers
10:02:22	My little tortoise were born in this farm.
10:02:25	Aren't they cute?
10:02:45	Mites are bothering them, as well.
10:02:47	However, they couldn't get rid of them by themselves.
10:02:51	They need help.
