CUT TWO
NATURE AND ANIMALS
THE CROCODILE: 2' 54"
PRODUCER: JOSEPHINE KARANI

0:04:24:06, 0:04:28:16

The crocodile belongs to the reptile family

0:04:28:16, 0:04:39:07

Children who frequent the Nairobi Mamba village learn more about this ferocious animal that has been known to kill even human beings who live in its surrounding.

0:04:39:07, 0:04:50:15

But the crocodiles here are tamed but can also be a danger to those that tend them. oops, that was close, but the man seems to know how to deal with them.

0:04:50:15, 0:05:04:21

Some of the children visiting here learn that like other reptiles, crocodiles reproduce by laying eggs which they in turn bury in sand for 3 months before they can hatch to small crocodiles.

0:05:04:21, 0:05:13:13

Crocodiles live both in water and land. Hey, where is the crocodile here? It looks like the rocks.

0:05:13:13, 0:05:26:06

And why does it keep opening its mouth? The children learn that unlike human beings, they don't have sweat glands, so they loose and gain heat through the mouth.

0:05:26:06, 0:05:44:02

Crocodiles feed on meat and fish. They are carnivorous animals. They do not have teeth for chewing, but their front teeth are used for tearing.

0:05:44:02, 0:05:50:18

Having a closure look, the children ask for closer contact with the crocodile.

0:05:50:18, 0:06:43:05

The man at the crocodile park brings them one up close!!

0:06:43:05, 0:06:54:17

What an adventure that was, they take a ride in the motor boat dubbed 'alligator' to another discovery. Hope this water is not crocodile infested!!

0:06:54:17, 0:07:19:00

"Row, Row, Row, your boat, Row, row, row your boat, gently down the stream, merrily merrily merrily....."
