

## A calf is born

00:01	This is Lisa the cow. She's expecting a baby.
00:06	Doro is soothing her.
00:11	I wonder if we can see anything yet.
00:14	We're privileged to be present at the birth
00:16	and share Lisa's very first moments with her calf.
00:26	Look, the calf is still all wet.
00:36	We rub it dry with straw.
00:51	It's already looking very inquisitive.
00:55	Lisa is no doubt very proud of her baby.
01:01	Friedrich is preparing a nice warm spot for the calf.
01:08	It's still very weak. It can't stand up yet.
01:21	And Lisa's still exhausted.
01:28	Friedrich has to milk her.
01:40	The milk is for the calf.
01:55	It's very healthy. It will help the calf get big and strong.
02:09	Friedrich gives it the milk from a bottle.
02:16	It can't drink properly yet.
02:31	I think the calf has still got a lot to learn.
02:38	Come and rest a while, little calf.
