

Leonardo da Vinci

- 00:08:30 This is Leonardo da Vinci. He was a genius. He was a super inventor and a fantastic painter. Just imagine - he was the one who painted the world famous picture of Mona Lisa.
- 00:08:44 Leonardo was born in Vinci in Italy 500 years ago. At that time, there were no cars, they used horses instead. And there were no airplanes either, just boats.
- 00:09:00 From his uncle Leonardo learned a lot about nature. And he paid so much attention to what he saw, that he was able to draw all the plants in detail - long after he first had seen them.
- 00:09:16 Leonardo was trained by the skilled painter named Andrea del Verrocchio.
- 00:09:28 And Leonardo soon proved to be very talented.
- 00:09:32 He was accurate, and wanted all that he painted to look like it was still alive. That's why he studied the human body carefully and used a loooong time when he painted.
- 00:09:47 Later in life, when he painted Mona Lisa, he hired in a whole orchestra to play for her - so she wouldn't be bored to death.
- 00:10:02 Leonardo got new ideas all the time.
- 00:10:06 He made his own alarmclock. This clock lifted his legs when it was time to get up.
- 00:10:17 Leonardo was fascinated by the idea of flying. That's why he invented the first helicopter.
- 00:10:30 He wanted to fly badly, and studied the way the birds moved their wings.
- 00:10:40 Then he made his own set of wings, and let a young man put them to the test.
- But it ended with a CRASH.
- 00:10:59 Leonardo was clever. He was so clever that kings and rulers wanted him to invent weapons and fortresses.
- 00:11:16 Not many of his inventions were realised, but you can see a copy of this bridge in Norway.
- 00:11:27 Now you know a bit about Leonardo Da Vinci.
- And remember him the next time you use a snorkel. Because Leonardo was the man who invented the first one.
