

- 01'06 I wonder why every time I put on a wool sweater... it itches ...
- 01'14 I suspect the story goes like this!
- 01'22 It's obvious! Inside the wool sweater there are sheep that are grazing and nibbling.
- 01'30 That's bound to make you itch.
- 01'38 Itches like mad, it's impossible not to...
- 01'43 What a relief!
- 01'45 And the sheep?
Ah here they are...
- 01'50 They are happy because they know, that soon they'll go for a hot scented bath....
- 01'59 Careful ...let go!
- 02'03 Hello!
- 02'12 Quickly! There's no more water!
- 02'16 Oh dear...
- 02'18 And after the bath, drying yourself in the sun...ah how wonderful !
- 02'27 But,

What!
Oh!
Oh!

- 02'30 As it dries the sheep's wool has expanded and become very soft...
They carry on grazing in the sweater and who knows if something has changed...
- 02'41 Mmm, scented...
- 02'50 It's very soft, and it doesn't itch any longer...and you can wear it without any trouble
- 02'58 Good... Perhaps we have solved the problem...
- 03'03 But the sheep... where have they gone to?
- 03'10 What's happening? The sheep are changing fields, in fact..
- 03'17 they are changing sweaters...
- 03'21 and, oh no! ...it's starting to itch!
- 03'25 That's the way things are! Every wool sweater is a field full of little sheep!!!
