

SNOW SWEET SNOW 2'06

- 1.03 Oh look! It's snowing!
- 1.06 But do you know why it snows some times?
- 1.10 Some say it's when the angels are giving their houses a really good cleaning ...
- 1.16 Oh yes!
- 1.18 Others think it's when they are having a special holiday!
- 1.23 But it could be that the angels are clipping the hedges in their beautiful gardens...
- 1.29 Well, who knows?
- 1.34 I think that this is what really happens!
- 1.38 The sheep that live up there in the clouds, those who go to live up there after having jumped over their stiles to help people fall asleep; find themselves in fresh new grassy fields and they have a great time.
- 2.06 Up in the sky there are stars all over the place, but do you know why?
- 2.12 Sheep are very good bakers and their favourite recipe is for crunchy star shaped biscuits.
Oh yes! They make lots and lots of them, so the sky is always full of stars that they eat every morning for breakfast.
- 2.27 **BUT SOMETIMES ...**
The recipe changes! And the biscuits taste sweeter because the bakers cover the stars with lots of icing sugar ...” a special icing sugar, that only exists up among the clouds”

They use so much that ... it doesn't all fit on the stars, so some falls down onto our heads and covers us in white
- 2.50 We say it's snowing.
You don't believe that?

Well do this...the next time it snows, rush outside...and smell the perfume in the air and try tasting the fresh snow; AND YOU'LL NOTICE THE SMELL OF BISCUITS!!!!
