

	<p><u>The missing prinsess</u></p>
00:00	<p>Once upon a time there was a king and queen.</p>
	<p>Their name was Magdalena and Runolfur.</p>
00:11	<p>They had one daughter named Stelpentina.</p>
00:16	<p>They lived in a giant palace.</p>
	<p>It was so big that in it were thousand rooms.</p>
00:25	<p>As the palace was gigantic</p> <p>and princess Stelpentina was very tiny,</p> <p>she inclined to get lost</p> <p>and her parents didn't know where she was.</p> <p>They were quite worried about this.</p>
00:37	<p>When Stelpentina got lost</p> <p>Queen Magdalena used to send her best men</p> <p>searching for her.</p>

00:42	Once she was found in the sorcerer's cauldron.
00:47	Once upon the tallest tower of the palace.
00:54	One day she was found in the armour of a knight.
01:02	The day after she was found in the cellar next to the dragon.
01:10	One day Stelpentina was nowhere to be found. No one knew what to do. Thousand rooms were in the palace but only one princess.
01:22	Then the queen and the king got a brilliant idea.
01:29	They decided to have 999 more little princes and princesses so that the children would be as many as the rooms. Then the palace was just big enough for the family.
