

CHILDREN STORIES: "A Long Time Before Yesterday... KILOMETRES"		
TIME IN	TIME OUT	SCRIP
00:00:00:21	00:00:07:02	Nowadays we can travel kilometres and kilometres just being in front of a screen
00:00:08:06	00:00:10:04	But once upon a time...
00:00:10:05	00:00:15:00	we had to use our imagination and put our body into motion
00:00:15:01	00:00:17:07	If it was a sea voyage...
00:00:00:08	00:00:21:20	There were those who chose to a build a paper boat to sail in the bath
00:00:23:21	00:00:25:12	If the idea was to travel through the skies...
00:00:25:13	00:00:30:22	many took the risk of getting trapped into the cables of a little aeroplane
00:00:30:23	00:00: 36:15	And they enjoyed it a lot though sometimes their necks ached for days
00:00:39:18	00:00:42:03	To cross long distances by land...
00:00:42:04	00:00:46:09	there were adventurers who went horse ridding in their own house
00:00:46:10	00:00:48:17	or in the park's carrousel
00:00:48:17	00:00:55:15	And they trained very hard just in case some bandit crossed unexpectedly in their way.
00:00:57:07	00:01:05:15	There were who luckily had a playfull mother for the manoeuverings of the last model racing car
00:01: 05:16	00:01:11:12	Or a father ready to drive a fabulous miniature electric train.
00:01:12:20	00:01:18:06	And if someone didn't have a boat, plane, horse or train,
00:01:18: 07	00:01:23:18	it could always be possible to go trough distances just rolling down the hill..
00:01:24:09	00:01:30:04	For travelling kilometres and kilometres, what would

		be more thrilling:
00:01:30:05	00:01:37:01	to do it trough some screens or to run and run for ever?
