### **Olivia in the middle!**

“Olivia in the middle” is a Swedish documentary about an extremely strong and stubborn ten year old girl - Olivia! She feels torn between her parents, who are divorced, and she decides to change the situation. They have to stop arguing about her. Now!

-I feel like I stand in the middle and my parents pull on me from each direction; mine, mine mine! Finally I crack and then I get angry. Now I´ve had it! says a determined Olivia.

Olivia gathers her best friends, who also have fighting parents. They decide to start a band. Through the music they will try to make their parents understand how they feel. With enormous enthusiasm and energy they start “The Fire Girls”, and write the song “I love you both!”. The big plan is to invite all the parents to a concert and sing the song to them.

-The name “The Fire Girls” means that we are strong, like fire. We´ll fight for what we believe in and we´ll never give up! Olivia explains.

Are “The Fire Girls” going to succeed with their mission? How will their parents react to their coup with the song! Will they understand? Watch Olivia and her friends Amanda, Maryeve, Marina and Paulina on their hard but joyful way to change their family situations!
