

ALEKSANDER MOVES  
Ebudoku 2006 FINLAND – yle/fst  
Viveca Stenius

Press release

Aleksander is 12 years old and goes to a rather small Swedish speaking school in Helsinki.

In the middle of Spring Term he will have to move because his mother and stepfather have finally found the perfect house for the family far out in the country side – a house that is needed because of the kennel the mother has. The dogs don't have enough space in their suburban house.

The school which Aleksander will have to attend in the countryside is a very much bigger school than the one in Helsinki.

But moving to a bigger school wouldn't be a problem but for the fact that Aleksander has a history of being bullied in his old school. The bullying was really bad for many years and now – in sixth grade – it has finally ended.

It is with great fear and a lot of nervousness that Aleksander goes to his new school. Will he be bullied again? Or will he find friends?

We follow Aleksander on his last day at the old school and his first day at the new school, and several other days further on, until he is in secondary school and we know how it all turned out.
