Microsoft new office in Prague

Reinventing productivity hub

Digital work

Unique hub concept – themes-based central co-working areas spanning across all floors interconnected by open staircase to inspire collaboration, ideas exchange and creativity.

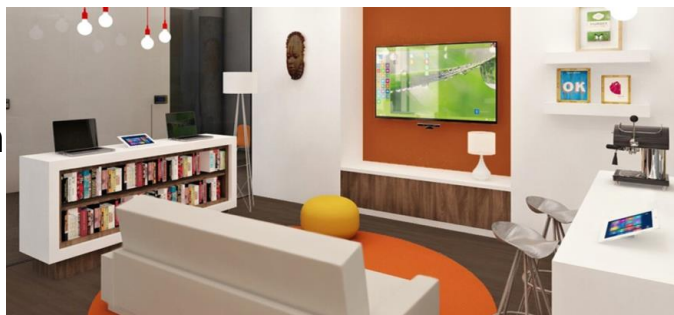

Digital business

Spacious customer zones on ground and 8th floors with top Microsoft technology such as Surface Hubs, conferencing area, gallery etc.

Digital life

Living room concept with Xbox and latest W10 devices

Inspirational meeting rooms

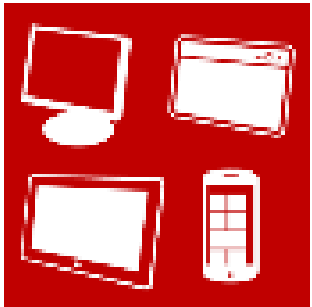

Example of results – Vienna office of Microsoft

- Increase of **employee satisfaction** to 8,4 (from 10)
- Increase of **productivity** by 3,5%
- Increase of **flexibility** positively valued by 82%, of **creativity** by 76% employees
- 33 % of new hires resulting from **referrals**

- 20% **less e-mails and attachments**
- Half meetings **on-line**
- 5 % improvement in **accessability** of colleagues
- Half employees use **Lync** (instant messaging) as #1 tool for urgent issues

- Ca 10% **savings** on operations, rental, electricity
- 50 hours per person per years less for **commuting**
- 70% employees said that **distance** from home to the office **does not impact** their ability to work for the company (they can do their work even when they live 200-300 km far)

We want to lead the way to the New World of Work, and inspire others to embrace it.
