# MAKING THE BUSINESS CASE FOR ANALYTICS AND CHANGE

GILES SLINGER

3<sup>RD</sup> JUNE 2016

# **CONTENT**

**01 DEALING WITH DIRTY DATA**

**02 DESIGNING THE FUTURE ORGANISATION**

**03 MAKING THE CASE FOR ANALYTICS**

# DEALING WITH DIRTY DATA

**EBU**

OPERATING EUROVISION AND EURORADIO

# **DON'T FEEL BAD: ALL HR DATA IS MESSY**

- Multiple systems
- Incomplete data
- Frequent restructurings
- ... and then some M&A

# IN ANNUAL PERFORMANCE REVIEWS, SOME MANAGERS WERE OVER-RATING THEIR TEAMS

- On average performance scores were higher than forecast
- We would break our budget for bonuses
- Visualisation helped by quickly identifying which departments showed patterns of “over-rating” and let us normalise the numbers *and* correct the behaviour

# SUNBURST OF PERFORMANCE PATTERNS

**MAKE SURE THE  
BUSINESS OWNS  
ITS OWN DATA**

**EBU**

OPERATING EUROVISION AND EURORADIO

# DESIGNING THE FUTURE ORGANISATION

**EBU**

OPERATING EUROVISION AND EURORADIO

# **EBU HAS NOW ESTABLISHED A BASELINE**

- Clear view of the organisation structure
- Potential for mapping the activities
- Potential for designing range of To-Be scenarios to assist with envisioning the future

# EXAMPLES OF ACTIVITY MAPPING

Understand your true As-Is...

# EXAMPLES OF SCENARIO MODELLING

Understand the impact of different options

# DESIGN FUTURE STRUCTURE FOR FUTURE WORK
